

Objectives of Seaford Neighbourhood Plan

1. To ensure that the Seaford and Bishopstone conurbation/Plan area has robust, accessible and sustainable rail and road transport systems for its residents and businesses that encourage and facilitate sustainable economic development.
2. To generate a balanced local economy by promoting sustainable tourism utilising the town's natural assets, supporting local businesses and regenerating the seafront.
3. To promote an active community through retaining and enhancing the economic infrastructure, physical infrastructure and facilities to promote sustainable development to ensure a thriving social, cultural and community life.
4. To preserve and enhance the environment and countryside both within and around the town, including the historic environment and heritage assets.
5. To protect, preserve and expand on the local green spaces in Seaford.
6. To encourage the provision of a range of housing mix, market and affordable of different types and tenures in sustainable locations accessible to local services and facilities.
7. To ensure new housing and developments are of high quality and complement and enhance the town's built and natural heritage.

Question: Should other objectives be added for example on tourism, affordable housing, demographics? Please leave your comments on the form.
