

# Local Economy and Facilities

Please let us know what you think of the main points of the plan.

 Agree   
  I don't know   
  Disagree   
 Please circle your response!

**Please do talk to a member of the Focus Group Team for more detailed information at this meeting or e-mail [seafordnp@gmail.com](mailto:seafordnp@gmail.com).**

1. Lewes District Council has policies in place to help ensure development is sustainable. Do you agree that, wherever possible, any development should include sufficient infrastructure e.g. health services, educational and social facilities and easy?

2. Do you agree that the town centre should remain, as much as possible, a retail centre and its vitality be protected from non retail development?

3. Do you agree that, if possible, homes above shops could help preserve the retail centre but also provide additional homes?

4. Do you agree that we should examine if there is a need for a small business "incubator unit"?

5. Our focus group recognises that extra visitor accommodation in the Town is seen as necessary. We have also looked at existing Lewes District Council policy which looks comprehensive. Our view is the best way to increase visitor accommodation is to have a more vibrant economy. Do you agree?

6. Do you agree that our Focus Group should explore what policies may be needed to enhance the seafront, by better maintenance and possibly creation of new facilities in keeping with the unspoilt Seaford Bay - see our evidence report for more information?

7. Do you agree that our Focus Group should do further work to understand if the Neighbourhood Plan can support the town being a seaside gateway to the National Park and to promote other visitor attractions?

8. Do you agree that we need better signposting and access to key assets, such as the town centre, toilets, shops and visitor attractions like the museum?
